

## **OVER 2,000 PRODUCTS JUST A CLICK AWAY WITH COMAP.CO.UK**

Comap – the leading European manufacturer and distributor of plumbing and heating products – has refreshed and re-launched its website [www.comap.co.uk](http://www.comap.co.uk), making it more comprehensive and user-friendly than ever.

With a clean, fresh look and a simple to navigate layout, comap.co.uk is set to become the ultimate plumbing and heating product-search resource.

Over 2,000 products are showcased on the site – with new products constantly being added – all accompanied by a colour photograph and full technical specifications. From fittings and valves to gas products, taps, sundries and full crimping systems, customers can now save time and find the right product online, whatever their needs.

Regularly updated news and case studies sections on the site unveil product innovations, the latest on the team and fascinating insights into how Comap products have been used in impressive, large-scale developments.

The handy professional forum is packed with helpful information: from sensible answers to frequently asked questions, to a glossary of plumbing and heating terms. Customers can access invaluable information such as quality accreditation certificates from the download centre and can sign up to Newsflow, Comap's newsletter, so that they're always up-to-date with the latest developments.

Reassuring to new customers, an informative 'company' section details Comap's pedigree as a European manufacturer with state-of-the-art factories in France and subsidiaries worldwide.

Managing director, Lee Kenney, commented: "It's important to us that our customers have all the information they need at their fingertips. The new website is a great resource – it has been really carefully developed to reflect the industry's needs and will be constantly updated with new products and services – making it a dynamic and meaningful tool."
